TEAM REVIVIFY

SELF-HEALING COATING PACKAGES

A deeper shine. Protection that lasts.

Three ways to protect your finish. One meticulous preparation process.

01 BASIC PRO

2 YEARS

REVIVIFY Self Heal Lite

An accessible introduction to self-healing protection. Adds gloss, repels water, and helps defend against UV exposure and everyday contaminants.

02 ULTRA PRO

3-5 YEARS

REVIVIFY Self Heal Ultra

OUR FLAGSHIP PACKAGE

Our flagship choice for rich gloss and lasting protection. Increased solids and enhanced self-healing performance help preserve a freshly detailed finish.

03 DRIVERS PRO

5+ YEARS

REVIVIFY Carbon X

Our most advanced option. Carbon- and graphene-based technology combines long-term durability, deep gloss, water repellency, and self-healing performance.

INCLUDED WITH EVERY PACKAGE

Exterior wash / Paint decontamination / Clay bar treatment
One-step paint correction / Professional coating application

Additional correction may increase the price. Any extra work is discussed and approved before proceeding.

Self-healing helps light swirls and minor marring within the coating recover with heat. It does not repair deep scratches, rock chips, or paint damage. Longevity depends on care, use, and exposure.
